Shoe Tying and Lacing-Kids Activity.

A fun, practical activity that builds fine motor skills, hand-eye coordination, and independence!

What you need:

- Printed shoe template
- Hole punch
- Yarn or shoelaces
- Markers, crayons, or stickers (for decorating the plain template before laminating)

What to do:

1. Print the shoe template (1 per child).
2. Laminate the template.
3. Punch holes where the eyelets (lace holes) are marked.
4. Let kids decorate their shoe with colors or stickers.
5. Give them a lace or yarn to practice threading through the holes.
6. Once laced, teach the child how to tie a basic knot or bunny ears bow.
